

Personalised Travel Planning

Have you ever wondered how much money you could save, or how you could build more walking or cycling into your day? Or even if you can reduce your transport carbon footprint?

We would love to help you find out through our Personalised Travel Planning Programme. We are working with new residents to understand their current transport requirements to help identify where changes can be made to the benefit of the environment and health, whilst saving you money.

Taking part is easy, the Travel Plan Coordinator will arrange for an interview (either by phone or in person) in order to understand your existing travel requirements.

The interview takes about 15 minutes. The information you provide is used to create a profile of your transport costs and carbon footprint alongside some suggested travel alternatives for your regular journeys with detailed information including route plans and the potential cost savings and health benefits. We will even have a few incentives to get you started!

The Travel Plan Coordinator will then arrange for a follow up call or meeting to see how you are getting on and offer any further help and support.

Interested? Just get in touch with Angela, the Travel Plan Coordinator, via email: avs@dtatransportation.co.uk
